

Workshop Announcement

“Training and networking for WB-EU research cooperation in ICT for Learning and eLearning”

18 September 2009

CAPSIS Hotel, 18 Monastiriou Str., 546 29 Thessaloniki, Greece

The workshop

Two EU-funded projects are jointly organising a **“Training and networking workshop for WB-EU research cooperation in ICT for Learning and eLearning”**. The workshop will be organised in the frame of the international event **“4th Balkan Conference in Informatics-BCI 2009”** in Thessaloniki, Greece on 18 September, 2009.

The programme

This 1-day workshop focuses on **Technology Enhanced Learning and ICT skills** and it addresses researchers from the Western Balkan countries* and also from the EU. It intends to provide guidance and the necessary information for participating in the Seventh Framework Programme – FP7, and will be structured in **sessions** that allow the participants from the WBC and the EU to:

- Be informed on the latest developments and trends in e-Learning
- Be trained on how to participate in FP7 Proposals and how to manage contractual and financial obligations that arise from grants.
- Benefit from the presentation of Best practices and FP experiences
- Network with representatives of other organizations, by presenting their capacities in the field of Technology Enhanced Learning and ICT Skills.

The organisers

The two projects, **ICT-WEB-PROMS** “Promoting ICT cooperation opportunities and policy dialogue with the Western Balkan Countries” and **WINS-ICT** “Western Balkan Countries INCO-NET Support in the field of ICT” are two EU-funded Specific Support Actions aiming at enhancing scientific and research cooperation between the Western Balkan region and the EU, specifically in the theme of Information & Communication Technologies (ICT).

The training and networking workshop has no fee but requires registration in advance

REGISTER to the WORKSHOP by visiting www.wins-ict.eu and completing the registration form!

IMPORTANT NOTICE: completing the registration form secures participation only for the workshop organised by the ICT-WEB-PROMS and WINS-ICT projects, and not to the 4th BCI 2009 conference. Workshop participants interested in attending to 4th BCI 2009 can benefit from the special rate of €250 (instead of 350€). For registration under the special BCI rate, please contact Mr. Konstantinos ROUSSIS (konrousis@seerc.org).
